

FOR IMMEDIATE RELEASE

LAKEVIEW HEALTH OFFERS VACCINE FOR ALL PATIENTS

Jacksonville, FL, April 9, 2021 - Lakeview Health received the first shipment of the Covid-19 vaccine on April 5th at their Jacksonville facility to aid in the protection of patients and staff against the potential harmful effects of the virus. The vaccine, provided by the Department of Health, is being offered free of charge.

“We are grateful for the opportunity to provide vaccines to our patients and staff” says Chief Medical Officer, Dr. Lantie Jorandby. “Since the onset of the pandemic, we have taken a number of precautions to protect everyone at Lakeview and this is an exciting step in our strategy to prevent the spread of Covid -19 .”

The Moderna vaccine, administered by the Lakeview Health medical team, offers peace of mind to both patients and staff and is a critical step to ensuring the safety of our community. Employees have expressed a sense of relief coming into work each day knowing that they have been vaccinated, according to Lakeview Health management. The company is confident that offering the vaccine on site will help lower the anxiety levels of patients coming to treatment.

Education is a critical part of the vaccine rollout process. The company offers webinars and Q&A opportunities with their medical team to provide everyone at Lakeview and partners the opportunity to ask questions and address any concerns circulating.

The company is continuing to maintain their stringent Covid protocols of testing all incoming patients, temperature screening patients and staff, social distancing and wearing masks.

Lakeview Health is not offering vaccines to the general public, to find a vaccination site near you visit: <https://www.cdc.gov/vaccines/covid-19/reporting/vaccinefinder/about.html>

About:

Lakeview Health is a Center of Excellence in residential addiction treatment, specializing in patients with dual-diagnosis disorders and high medical acuity. Our physician-led multidisciplinary team provides individualized, evidence- based approaches to treating addiction, a complex brain disease marked by periods of remission and relapse. Lakeview programs address all aspects of healing to empower patients to move successfully towards a life of recovery. To learn more, visit www.LakeviewHealth.com.
